

Application No.: 10/698201

Case No.: 58836US003

Amendment to the Specification:

Please amend the specification as follows:

Please replace the paragraph on page 5, lines 1-6 with the following amended paragraph:

The mixture preferably comprises at least 2 and more preferably at least 3 monomers each having one ethylenically unsaturated group and, in particular, a (meth)acrylate group. The mixture preferably comprises at least 40 wt. % and more preferably at ~~least~~ least 50 wt. % with respect to the mass of the mixture of one or more weakly polar monomers comprising one ethylenically unsaturated group and, in particular, a (meth)acrylate group.
